

Demand Italian. Specify Cortina.

## Interwoven Collection

Interwoven leathers represent the utmost in luxury. Cortina Leathers has exclusive access to hand-loomed leathers from a select group of Venetian weavers famous for their high-end Italian accessories. Cortina offers eleven standard interwoven patterns.

### Applications

- Upholstery
- Pillows
- Headboards
- Wall Panels
- Floor Runners

### Width

All patterns are stocked in rolls, 28" wide. Minimum order is (1) linear foot = 2.33 s.f. The rolls can be produced in lengths according to your specifications.

All patterns with the exception of the Miniweaves and the Milano Weaves are available to order, in 39" width, with a 25 s.f. minimum (7.7 linear feet). If you require a smaller quantity, please check to see if we have a remnant. If widths greater than 39" are required, consider using our embossed collections: Intreccio (woven embossment on full-size Rustico hides) or the Campania Collection (with some woven patterns with plates ranging from 39"-54" wide).

Because of selvage (an unfinished edge), the usable width is 27" wide (or 38" for the 39" width). The edges must be turned under or finished in some fashion to prevent the material from unraveling.

### Quantity

Although the Interwoven Collection is fabricated from leather, it is constructed as a backed fabric, and is supplied on rolls. Therefore, the quantity should not be calculated by the typical conversion formula of one yard = 18 s.f. of leather. Instead, inform your furniture manufacturer or workroom that a 28" or 39" wide material has been specified and request the running yardage requirement.

For use in wall panels or headboards, the use of 24" wide or 35" panels, for 28" or 39" material respectively will maximize the yield.

One linear foot = 2.33 s.f., based on 28" width.

One linear foot = 3.25 s.f., based on 39" width.

Pricing in the price list is per square foot (not per linear foot).

The Interwoven Collection can be railroaded.

### Customs

Customs are available, and minimum quantities differ according to the pattern and leather. Please contact Customer Service.
