

Bellagio

The Contemporary Antique: Hand-rubbed, Lustrous Leather

Average Hide Size: 50 s.f.

Average Thickness: 1.1 mm

Average Weight: 3 oz.

Inspired by the charming historic town on the shores of Lake Como, Bellagio is designed to create a contemporary antique look. Bellagio combines the dimensional, two-tone “warm” effect of an aged leather with all of the performance benefits of modern day tanning. It is a full-grain that is aniline treated with a hand wash to produce a subtle semi-sheen with a two-tone cast. The effect is a striking depth and richness for upholstery or coverings in any setting.
