

## Cavallo

Hair-on Hides

**Average Hide Size:** 25 s.f.

**Average Thickness:** 1.4 mm

**Average Weight:** 3.75 oz

Prized for decades by fine Italian accessory manufacturers, these super-luxurious aniline-dyed hides with hair are also perfect for upholstery in particular applications. Cortina has long been a source of hair-on hide upholstery hides; now, the collection has been expanded to include solid colors, silk-screened patterns, and laser-cut patterns. Available in stock as half hides with sheared hair. Available in whole hides unsheared (longer hair) to order for 150 s.f. minimums.

**Solid Colors:** In addition to the traditional black, brown, and champagne hides, Cavallo is now available in brilliant fashion colors, thanks to advances in Italian dyeing technology.

**Silk Screened:** This collection of exotic, silk-screened prints on bovine leather reproduces the look and feel of authentic zebra, leopard, Dalmation and jaguar. The patterns capture the beauty and grace of animals in the wild.
