

## Rustico

Modified Pull-up, High-Sheen Distressed

**Average Hide Size:** 50 s.f.

**Average Thickness:** 1.0 mm

**Average Weight:** 2.75 oz

Cortina has created a leather that combines the best features of some of its most popular products: a “distressed” look and a high-sheen finish subtly blended in a high-end full-grain leather with a protective topcoat, making it suitable for any type of application. Rustico is 100% pure-aniline dyed in the drum, then finished with a paraffin topcoat and finally a brilliant polish. The result is a two-tone, distressed leather with sheen. Like all distressed leathers, Rustico will become more worn-looking with time. Similar to our “Rodeo” leather but shinier, Rustico will lighten and darken with use.
