

## Stonewash Gigli

Classic Naked Cowhide embossed with Small-Scale Arabesque Pattern

**Average Hide Size:** 50 s.f.

**Average Thickness:** 1.0 mm

**Average Weight:** 2.75 oz.

Gigli, a small-scale arabesque pattern, is available in the same 8 colors of Stonewash. Available in a whole-hide embossment with a large yield, the leather is placed on a smooth metal plate and embossed on the back, or flesh side, resulting in a shiny, smooth surface that is not noticeably embossed but rather subtly incised.

Stonewash Gigli is color-coordinated with Stonewash and Stonewash Penelope.
