

Struzzo

Ostrich Embossed

Average Hide Size: 25 s.f.

Average Thickness: 1.3 mm

Average Weight: 3.5 oz.

Struzzo is the Italian word for Ostrich. Our Struzzo is produced on cowhide, yielding a much larger cutting area than ostrich hides, and costing only a fraction of ostrich leather. The pattern is a replica of natural ostrich hides in scale and texture, lending a particularly realistic look to the leather. This version of ostrich-embossed leather incorporates a subtle tone-on-tone tipping on the raised nubs on the leather.
