

Ventura

Soft, Calf-like Cowhide

Average Hide Size: 50 s.f.

Average Thickness: 1.0 mm

Average Weight: 2.75 oz

Ventura is a supple, "calf-like" cowhide with an exquisite softness. Ventura is ideal for upholstery situations in which Roma calfskin may be too expensive or have too small a cutting area. This remarkable leather is luxurious, durable, and significantly larger than typical calf. Combining the buttery-soft hand of calfskin with the large, clean yield of cowhide, Ventura offers classic beauty, durability, and a wide range of uses. Ventura is 100% aniline-dyed in the drum, and is finished with a protective topcoat with a very subtle sheen. The silky touch of Ventura makes it an excellent choice for contract, residential, hospitality, retail and aviation applications.
